

I am a devoted listener of KLOVE radio in Lawton and would be lost without it. It upsets me and my family that there is even a chance we would lose our Christian based station. I get such encouragement out of it as well as use it as a ministry tool. Many people have come into my home or car and asked about the music. It has helped me to share the love of God with them and changed their lives for the better. I know many, many people who listen to KLOVE and would be lost without it. The positive message and child friendly music are a must in this world of foul mouthed negative music! The mothers I am friends with don't have to worry what is going into our children's ears and what will come out of their mouths! In this world of negativity, it's refreshing to hear a positive message and that's what KLOVE brings to my life and my community. PLEASE do not take KLOVE off of the air! It's valuable to the spriritual and mental well being of anyone who hears the music and the message they bring!
